Public Notice for CET

It is for information to all CET aspirants that vide Memo. No. 42/119/2019-5HR-II dated 14th May, 2025 , Government has clarified some observation regarding marks of CET applicants which is as under:-

Sr. No.	Observation	Clarification
1	If a candidate has applied into SC category in CET 2022 and got 80 marks but now in CET 2025, he comes under DSC and gets 70 marks Then which category of the candidates needs to be considered SC or DSC?	If a candidate belonging to the SC category scored 80 marks in CET 2022 but in CET 2025 qualifies under the DSC category with 70 marks and applies under the DSC category against an advertisement then their candidature shall be considered under the DSC category with highest marks then the highest score of two or more CET should be taken into account and based upon the higher score of two or more CETs, candidate will be shortlisted to move to second stage of CET i.e. for skill test/written test for Group C & D posts as the case may be
2	Similarly, if a candidate score as per CET 2022 is 75 marks and his category is general and as per CET 2025 his score is 70 but his category is changed to BC-B. Then as per the CET policy his score shall remain 75 but there is no clarity about which category of the candidate shall be considered General or BC-B?	The short listing criteria remain the same the highest CET score is considered. If the candidate's category has changed from General to BC-B (for instance due to creamy layer considerations) and they apply under the BC-B category in 2025, then they shall be considered under the BC-B category. Thus, the candidate's category is determined based on the category claimed in 2025 and the highest score obtained across CET attempts. It is also clarified here that above principal will apply in all category. The highest score of all CETs will be considered for short listing and candidate will be considered in the category in which he/she applies pursuance to advertisement.
